Ping Zheng

2. Ping Zheng

Ping Zheng was born in China and today is based in New York. Her work certainly doesn't reflect the urban landscape of Manhattan. Instead with her exhibition "The Voice of Water," she radiantly presents landscapes in bright, brilliant and mysterious ways. Hers are interlocked presentations of elemental entities — water, land and sky — but considered in such a way that positive and negative space confound and melt into one another. Her pieces celebrate land and landscape, but also present it anew. These are revelatory canvases teeming with color.
